

QUOTELY – Visual & UX Design Bible

AI Underwriting. Human Confidence.

Design Inspiration

Use a visual language inspired by Stripe Dashboard, Linear, Cursor IDE, Mercury Banking and Notion AI. Minimal, enterprise, high-trust, with emerald green accents and lots of whitespace.

Color Palette

Primary Emerald	#16A34A
Background	#FAFAFB
Cards	White
Slate Text	#0F172A
AI Accent	Indigo / Purple
Warnings	Amber / Red

Dashboard Layout

Workspace Switcher Search Notifications

KPI CARD

KPI CARD

KPI CARD

KPI CARD

Recent Quotes Table

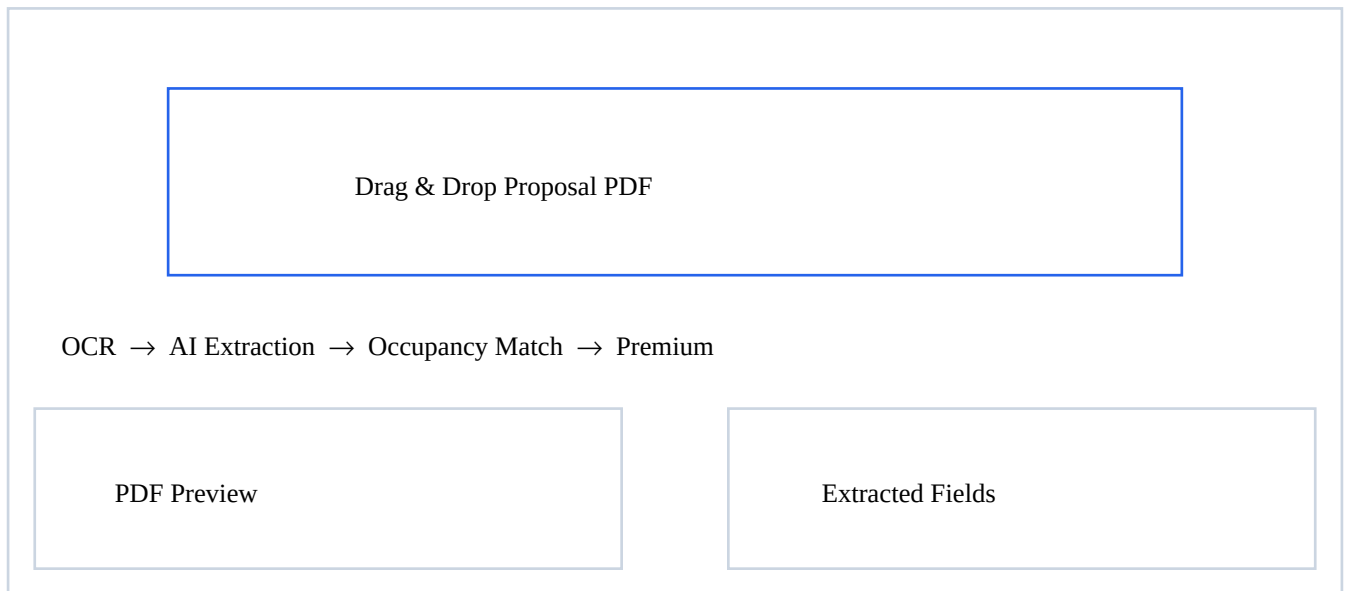

KPI cards at the top, recent quotes table below, quick actions and activity timeline on the right.

Signature New Quote Workspace

Three-column layout: Proposal Form • AI Underwriting Analysis • Sticky Premium Breakdown.

Upload & OCR Experience

Occupancy Explorer

Searchable data table with filters (Warehouse, Manufacturing, Retail, Hazardous). Each row expands to show loss cost, hazard category, keywords and source document citation.

AI Assistant UX

Cursor-style chat panel with citations from tariff documents. AI highlights detected keywords, top occupancy candidates, missing fields, and confidence percentage.

Client CRM & Quote History

Each brokerage has multiple users. Every user logs into a workspace, sees assigned clients, previous quotes, uploaded documents, audit logs, and activity history.

Microinteractions

- Hover cards lift 2px.
- Skeleton loaders while AI processes PDFs.
- Streaming AI text.
- Animated confidence rings.
- Sticky premium sidebar.
- Toast notifications for quote generation.

Prompt for Antigravity Visual Generation

Build Quotely using the above design system. Inspiration keywords: Stripe Dashboard, Linear, Cursor IDE, Mercury Banking, Notion AI, enterprise SaaS, emerald accents, soft shadows, large whitespace, professional insurance operating system.
